PRESS STATEMENT

CANDIDACY OF JEROME CHAMPAGNE FOR FIFA PRESIDENT

On behalf of the Executive Committee of the Kenyan Premier League (KPL), I would like to welcome the recent announcement by Jerome Champagne that he is a candidate for FIFA President.

During 2004-09, Kenyan football benefited greatly from his always principled support, sound advice and patient commitment in reforming and strengthening our football management and decision-making bodies.

As a result, today the KPL is one of the most corruption-free, highly competitive, professionally managed and respected leagues in Africa. That is also due to the innovative FKF-KPL Joint Executive Committee which he initially proposed and then helped create.

We especially welcome and support the comprehensive reform programme with many innovative proposals which he has publicly advocated since early 2014 for re-balancing, reforming and strengthening FIFA and world football at all levels.

for Yours Sincerely,

Ambrose Rachier
KPL Chairman
